

FULL SERVICE ELECTRICAL DESIGN SOLUTIONS

- INCREASE PRODUCTIVITY
- IMPROVE OUTPUT
- MEASURE SAFETY

INSIGHT ENGINEERING HAS OVER 20 YEARS EXPERIENCE DELIVERING QUALITY SYSTEMS AT A COMPETITIVE PRICE.

A Full Service Automated System will provide a range of benefits to your business including an increase in productivity, measureable outputs and improved safety.

At Insight Engineering, we develop the appropriate technical solution through ongoing consultation to ensure the best outcomes for your business.

In the design and development phase we will provide you with

- Electrical Drawings
- PLC Programming
- SCADA Design
- Quality Assurance
- Project Management

Once the system is implemented, Insight Engineering will continue to offer you support via our Automation Review and Optimisation Program. This program provides you with a detailed review and analysis of your automation systems including improvement recommendations.

These may include

- Cycle-time improvement opportunities
- Identification of unsupported risks
- Upgrades to software and hardware

OUR PRODUCT

Insight Engineering is a Recognised Systems Integrator with Rockwell Automation and is a Silver Partner of Citect. These relationships ensure we are delivering the highest quality product to you, our clients.
